Class Schedule

INFOTC 2040 Programming Languages and Paradigms OR CMP\_SC 2050 Algorithm Design and Programming II OR permission of the instructor.

This is an online course. There are no physical class meetings. Saturday, August 18 - Canvas course and first module available. Monday, August 20 - Fall classes officially begin.

Monday, September 24 - Last day to drop the course without a grade. Saturday, November 17 - Sunday, November 25 - Thanksgiving Break. Monday, December, 3 - Last day to withdraw from a course. Friday, December 7 - All challenges, activities, quizzes and exams have to be submitted.

submitted by 11:59pm on the Friday due date each week to receive credit. **Assignments** 

The course officially starts on Monday, August 20. Your access to Canvas and the first week's modules are available on Saturday, August 18. Each week you are provided with new modules on Saturday and the work needs to be completed by the following Friday. Assignment, quiz and test solutions are posted the week following their assignment. This means there can be no extensions on assignments. Assignments must be

All assignments (quizzes, exams, activities, challenges, and projects) must be completed by the due date/time to receive credit.

information you are asked to provide and files you are asked to supply must be present to receive credit for

the assignment. If you are asked to follow a specific procedure or utilize a convention you must do so to receive credit. For example, if you are asked to name a project in a specific way and you do not follow the rules provided you will receive a zero on the assignment. If you are unsure of what you are to do you must ask

and receive clarification before submitting your work. **Required Textbooks** 

There are required textbooks for this course that we will use and there are several options for obtaining copies. It is expected that you have copies of the books by the start of the second week of classes. Other materials are provided online.

is earned as a percentage from 0% to 100% that is based on an equal averaging of items in that category. The percentage grade for each category is multiplied by the weighting percentage to determine the category's contribution to the total grade. The sum of contributions from the five categories yields the final grade. Categories and Weights

Quizzes: 20%

Midterm Exam: 20%

Final Exam: 20%

Grading Scale

Final Project: 20%

F = 59% and below

Challenge Grading

Activities, Challenges, Projects: 20%

A+ = 98–100%, A = 93–97%, A- = 90–92%

B+ = 87–89%, B = 83–86%, B- = 80–82% C + = 77-79%, C = 73-76%, C - = 70-72%

D+ = 67–69%, D = 63–66%, D- = 60–62%

Grading

Unless otherwise specified, challenges will be graded on effort. Effort will be measured on a number of different criteria; including, but not limited to, correctness, amount of work attempted, amount of work completed, using support material, asking for help, and meeting challenge requirements. Final Project Grading Final Projects will be graded on correctness. Course policies All challenges, activities, quizzes and exams have to be submitted by Friday, December 7th. There will be no exceptions to this policy. Anything not turned in by this date will receive a zero on the item in question.

not the effort is successful. The academic community regards breaches of the academic integrity rules as extremely serious matters. Sanctions for such a breach may include academic sanctions from the instructor, including failing the course for any violation, to disciplinary sanctions ranging from probation to expulsion. When in doubt about plagiarism, paraphrasing, quoting, collaboration, or any other form of cheating, consult the course instructor.

timely manner. You must fulfill the requirements of an challenge submission to receive credit for that challenge. Any information you are asked to provide or files you are asked to supply must be present to receive credit for the challenge. Instructor's Expectations for Students Be responsible for yourself, your work, and your actions. Attend to the work you have to do. Do not put it off. Make it part of your schedule. Do not try to do all of the work just before the course ends. Ask questions if you do not understand something. Engage in discussions on the class discussion boards. Ask for help if you get lost. Use the e-learning mentors! Communicate! Do not wait until late in the semester to address problems. Do not ask the instructor to break class policies. Be creative, curious, inventive, resourceful, and proactive. Be playful in your approach to learning and the work you do.

time; repeated failure to attend class when attendance is required; and repeated failure to participate or respond in class when class participation is required. IMPORTANT: Entering a classroom late or leaving a classroom before the end of the period can be extremely disruptive behavior. Students are asked to arrive for class on time and to avoid early departures. Instructors have the right to deny students access to the classroom if they arrive late and have the right to dismiss a student from the class for early departures that result in disruptions. Under MU policy, your instructor has the right to ask for your removal from the course for misconduct, disruptive behavior or excessive absences. The instructor then has the right to issue a grade of withdraw,
